

## How To Kill Someone As a State

First, it's messy  
& nervous.

You can use  
chemicals or  
electricity or

even lasers  
& microwaves..

Old-fashioned  
probably still best

and most poetically  
apt, Firing Squad.

Joe Hill took five  
in the left side  
courtesy of Utah.

That message, though  
forgotten, remains  
akin to today's Public

Relations for  
Fascism.
